

TOO MANY NAVY OFFICERS IN COMFORTABLE BERTHS ASHORE.

Mr. Cannon and Mr. Hepburn Open Up New Debate by Calling Attention to Number of Naval Establishments Centered at Newport and the Fact That One Officer Is Required at the Naval Academy for Every Four Cadets—Echoes of Schley Controversy—Civil War Reminiscences.

REPRESENTATIVE WILLIAMS READS POEM ON ADMIRAL CROWNSHIELD WHICH AMUSES HOUSE.

"Oh, who is Crownshield, papa,
That he should have the best
Of everything there is to have,
And sail on 'er all the rest?"

"Great Crownshield, my son, has done
A lot of wonderful things,
And now he rears the proud rewards
That virtue always brings."

"What were the virtues deeds he did,
That he should simply name
The things he wants for his reward,
And straightaway claim the same?"

"Oh, you can never understand
The wonders he has done,
The fight he made on Bismarck's plan,
And that was great, my son."

"What other fights were fought by him,
Whose day was grander than his?
High on our greatest ship before
The world's greatest eyes?"

Washington, May 16.—The House had another lively day of debate today, Philippine affairs and the Schley case coming in for considerable attention. The naval appropriation bill received little attention, after the more exciting themes of debate came up.

Mr. Cannon of Illinois and Mr. Hepburn of Iowa brought on the discussion by criticizing the extent to which naval officers secured comfortable berths ashore, whereupon Mr. Williams of Pennsylvania made a very sarcastic speech at the expense of Admiral Crownshield, during which he read a poem describing the late head of the Bureau of Navigation as "the greatest tar that ever sailed ashore."

Mr. Williams denied the assertion of Mr. Grover of Pennsylvania that Philippine war methods were similar to those of the Civil War. Mr. Cochran of Missouri, however, asserted that Mr. Williams in this connection, while Mr. Landis of Indiana discussed the resolutions adopted by Union veterans of Indiana, comparing the Philippine war with the Civil War, which criticized the army in the Philippines, with the cooperation of Grover.

NOT ON SALT WATER.

Mr. Cannon called attention to the numerous naval establishments centered at Newport and the fact that one officer is required at the Naval Academy for every four cadets, and that some of the officers at the academy were not on salt water, but on the dry land.

Mr. Hepburn of Iowa also commented on the large number of naval officers ashore, and said that he believed there must be something wrong with the navy. He said that the number of officers at the academy was not large, and that the number of officers at the academy was not large, and that the number of officers at the academy was not large.

Mr. Williams of Pennsylvania asked who would deprive the navy of the services of the officers who were ashore, and who would deprive the navy of the services of the officers who were ashore, and who would deprive the navy of the services of the officers who were ashore.

There was much laughter at the concluding lines of the poem. Great Crownshield, the greatest tar that ever sailed ashore.

MACLAY CROWNSHIELD RESOLUTION NOT REPORTED.

In more serious vein, Mr. Williams referred to the Schley-Schley controversy, and said that the official commission might be able to give the public some information as to the truth of the matter. He said that the official commission might be able to give the public some information as to the truth of the matter.

CARNEGIE LACONICALLY ADMITS HE OFFERED \$200,000,000 FOR FREEDOM OF PHILIPPINES.

London, May 16.—When asked to-day whether there was any truth in the published statement that he had offered to pay \$200,000,000 for the Philippines, Mr. Carnegie laconically replied:

"Yes, and I meant it."

CAR TRACKS MAY CROSS SIDEWALKS EFFORT TO EXTEND COAL MINERS' STRIKE

City Counselor Bates Renders This Opinion to Board of Public Improvements.

An entirely new feature of the special law known as the St. Louis Transit Company ordinance was brought out in an opinion rendered yesterday by City Counselor Bates, who states that the company has the right to construct tracks across sidewalks wherever necessary, provided the tracks will not interfere with public interests. The board, he says, must be the judge as to the purpose of the tracks.

Proposals were received at noon by the board for the reconstruction of sixteen streets with granite, brick and asphalt. These were the first proposals submitted for improvements under the Charter amendments and contractors showed especial interest in the proposals. The board was crowded with contractors and their agents. The asphalt proposals are lower than they ever were, while the granite and brick are higher. About three bids were received for each contract.

F. N. Judson has been requested by the Mississippi Valley Trust Company to give an opinion on the proposed street improvement amendment. F. N. Judson is studying the same action. Messrs. Judson and Lombberger conferred yesterday afternoon with City Counselor Bates and Chief Draftsman Travilla of the Street Department, on the legal and practical phases of defining district boundaries.

The board directed A. J. O'Reilly, Superintendent of City Lighting, to stop the use of the trolley wires of the Fourth and Arsenal Railway for any other purpose than authorized by the "Green Line" special ordinance.

The board rejected the bids for building a new machine shop at Baden Waterworks station. The proposed structure is deemed too elaborate and costly.

The Rittenhouse tender device was approved. June 3 was designated as the date when bids will be received for making wharf repairs. Harbor and Wharf Commissioner Whyte was authorized to exercise his judgment in renewing granite and lime.

NO EXPOSITION WILL BE HELD NEXT FALL

Building to Be Rented for Other Purposes Until After the World's Fair.

W. J. ATKINSON FILES SUIT.

Library Board Entertains Hope of Leasing Part of the Property to the Government for a Post Office.

Owing to the absence of a quorum of the Public Library Board of Directors, at its regular monthly meeting, held in the library building yesterday afternoon, was confined to a formal discussion of library affairs. Those present were President F. W. Lehmann, L. W. Morton, Morris Glaser, Edward L. Proctor, and Librarian F. M. Crunden.

A plan to make the exposition building as profitable as possible until after the World's Fair, since it has been decided by the board not to hold an exposition, was the chief topic of discussion. President Lehmann suggested that the building might be rented for concerts, athletic and other meetings of proper character, which would bring into the library fund a nice revenue.

The matter was referred to the Administration Committee. The probability of the United States Government purchasing the block bounded by Seventeenth, Eighteenth, Olive and Locust streets, for the purpose of erecting a Post Office building thereon, was also discussed.

The property mentioned is owned by the library board, and it seems to be the most available site for a Post Office building. The board is of the opinion that they will find in the Government a ready purchaser for the property.

The building is situated on a corner, and is a very desirable site for a Post Office building. The board is of the opinion that they will find in the Government a ready purchaser for the property.

Next Saturday afternoon the board will visit Carondelet for the purpose of inspecting the several buildings which have been offered for library branches.

To Set Aside Sale. General Manager A. J. Atkinson of the St. Louis Exposition filed suit in the Circuit Court yesterday against the city of St. Louis, to set aside the sale of the St. Louis Exposition property, which was sold to the city of St. Louis.

ERUPTION OF MONT COLIMA SEEMS TO GATHER FORCE. Guadalupe, Mexico, May 16.—Loud rumblings which come from Mont Colima and the great clouds of smoke which are constantly being emitted from the volcano indicate that an active eruption is certain to occur.

There has been an exodus of people from the town and villages, most of them going to Manzanilla and other coastal points. A party of scientists representing the Meteorological Department of the Mexican Government passed through Guadalupe to-day on its way to take observations of the threatened eruption.

SNODGRAS NOT YET CONFIRMED

Committee on Sanitary Affairs Will Consider His Appointment.

The appointment of Doctor C. A. Snodgrass as City Bacteriologist and Pathologist, which was approved by the Board of Health, was not confirmed yesterday by the City Council. Chairman Sheehan of the Committee on Sanitary Affairs announced that his committee will consider the appointment Tuesday afternoon at 2 o'clock.

Dr. Snodgrass is a well-known physician and bacteriologist. He has been in the service of the city of St. Louis for many years. He is a member of the American Medical Association and the American Bacteriological Association.

Dr. Snodgrass is a well-known physician and bacteriologist. He has been in the service of the city of St. Louis for many years. He is a member of the American Medical Association and the American Bacteriological Association.

YALE PROFESSOR SAYS A NEW CONTINENT IS BEING FORMED IN THE CARIBBEAN ARCHIPELAGO.

REPUBLIC SPECIAL. New Haven, Conn., May 16.—Doctor Herbert E. Gregory, assistant professor of geology in Yale University, believes that an earthquake preceded the volcanic eruption in Martinique, and that the archipelago will in time become a continent.

"Earthquakes almost invariably precede eruptions of this kind," said Doctor Gregory. "I surmise that there was a series of earthquakes, ending in a number of explosions in the volcano, and then a final bursting out of the main mass which was so destructive."

"It is not likely that sea water had anything to do with the original explosion. The heated rocks in the mountain itself must have burst into steam when the pressure was relieved. The whole top of the volcano was first blown off; then the mass exploded in mid-air, falling in fire dust on the city, while mud and lava poured out of the orifice. It is quite likely that earthquakes will follow now in the neighboring and sympathetic regions."

"As to the lava reported to have flowed in three minutes from the crater to the sea, I take it to have been much more likely mud and hot water, while the lava flow is a very thick consistency, same as I shall also expect to hear that there were heavy rains at the time of the explosion."

"The whole chain of islands in the Caribbean Sea is undergoing a change from island to continental structure, as is Japan. Earthquakes and volcanic eruptions will continue until this is completed. In time the whole chain will be a new continent, connected by land surface throughout."

ACTIVE AND HEARTY THOUGH 94 YEARS OLD

Mrs. Elizabeth Zeiler, Former Resident of St. Louis, Travels Here Alone From Denver.

Frank Prade, Who Says He Lives in St. Louis, Under Arrest at Jerseyville, Ill.

A youth who gives his name as Frank Prade of No. 208 Laclede avenue, St. Louis, is under arrest at Jerseyville, Ill., charged with obtaining money under false pretenses. Prade was first seen in Jerseyville on the morning of May 3, when he was found lying along the tracks of the Chicago and Alton Railroad, apparently fatally injured. He was taken to the Jerseyville hospital, where Doctor M. B. Tetterton examined him and said that he was suffering from dislocation of the left hip, in addition to a few minor bruises.

Prade claimed that while riding in the cab of a freight engine on his way to Roadhouse, Ill., he fell and received the injuries. He made a claim against the Chicago and Alton road for \$50, which was allowed. An investigation in which it was claimed that he had practiced fraud, resulted in his arrest just as he was boarding a train for Chicago. He was lodged in the Jersey County Jail, and there he apparently was seized with an epileptic fit. Physicians were summoned, but they failed to find any cause for trying to sever his jugular vein with a sharp piece of brass.

At the address on Laclede avenue given by Prade as Jeromeville, Miss Teresa Prade, a music teacher, stated that she has a brother named Frank, though she was unable to state whether or not the person under arrest at Jerseyville is he. She said that her brother had been in St. Louis for a long time, and that he was a very active and hearty man.

Yesterday morning, while the authorities were still in a quandary as to the man's name and motives, E. D. Haldean of the Kansas City claim of the Eastern Missouri City and Southern Railroad-Port Arthur, Texas, arrived in St. Louis, and identified the stranger as Frank Prade, No. 208 Laclede avenue, St. Louis. Haldean also made a claim for the Port Arthur route for injuries alleged to have been received in a collision between a freight train and the Metropolitan Street Railway and other Western lines, which occurred in Missouri.

After being confronted with the charges of Haldean, the man made a sworn statement to the court stenographer. In the presence of the officials, in which he stated his name was Prade and that he was a contractor, and that he was in the employ of the Port Arthur route. He had been in St. Louis for a long time, and that he was a very active and hearty man.

Prade, who was a traveling salesman for the Port Arthur route, and who was connected with Nelson Morris & Co. at St. Louis, was taken to the city jail. He was a very active and hearty man, and he was a very active and hearty man.

GOLD MEDALS FOR ST. LOUIS

City and State Share in Educational Awards at Charleston.

REPUBLIC SPECIAL. Charleston, S. C., May 16.—The jury on educational awards at the Charleston Exposition submitted its final report to-day, and Missouri has fared gloriously in every department. The St. Louis Exposition has won three gold medals, one going to the St. Louis Board of Education, one to the St. Louis Public Schools, and one to the St. Louis Kindergarten Association.

The State University at Columbia and Lincoln Institute at Jefferson City each carried off a gold medal. Silver medals went to the University of Missouri, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the University of Florida, the University of Alabama, the University of Mississippi, the University of Louisiana, the University of Arkansas, the University of Texas, the University of California, the University of Illinois, the University of Wisconsin, the University of Michigan, the University of Minnesota, the University of Iowa, the University of Nebraska, the University of Kansas, the University of Oklahoma, the University of Colorado, the University of Arizona, the University of New Mexico, the University of Nevada, the University of Idaho, the University of Montana, the University of Wyoming, the University of Utah, the University of New York, the University of Pennsylvania, the University of Maryland, the University of Delaware, the University of Virginia, the University of North Carolina, the University of South Carolina, the University of Georgia, the
